

Date / Time: 11.02.2013 / 19:00

Place: Grande Bretagne Hotel, Athens

Subject: Annual event of SVEIS (national association of CECED) for invited members and relevant stakeholders of the electric household appliance sector.

Details:

The Department of Environment and Transport of CRES realized a presentation on the new energy labeling of electric household appliances during the annual event of SVEIS. During the event presentations were also realized concerning the challenges of the electric household appliances sector on a national level and concerning the recycling of appliances. Also, awards were given to shop assistants of retail shops with outstanding professional skills.

The presentation of CRES was addressed to professionals of the electric household appliance sector (manufacturers, suppliers, retailers and other relevant stakeholder):

The following issues were discussed:

- The old and the new energy label: similarities and differences
- The requirements of the new energy labeling Directive
- The characteristics of the new energy label
- Categories of appliances that should bear the energy label
- The importance of the energy label for manufacturers/suppliers

- The importance of the energy label for retailers
- Responsibilities of suppliers and retailers
- Effect of ecodesign requirements on the energy labeling legislation
- Examples of wrong display of the energy label in retail shops
- Replacement of less energy efficient electric household appliances with more energy efficient ones
- The Come On Labels project

The participants discussed relevant issues with the presenter. They addressed interesting questions on the proper implementation of the new energy labeling system. CRES, as a partner of the Come on Labels project, offered assistance to relevant stakeholders in resolving questions on the energy labeling legislation. Information material produced within the project was offered to stakeholders.

The agenda of the event is presented below:

ΣΒΕΗΣ

ΣΥΝΔΕΣΜΟΣ ΒΙΟΜΗΧΑΝΙΩΝ & ΕΠΙΧΕΙΡΗΣΕΩΝ
ΗΛΕΚΤΡΙΚΩΝ ΣΥΣΚΕΥΩΝ

ΠΡΟΓΡΑΜΜΑ ΕΚΔΗΛΩΣΗΣ
