

Come On Labels

Come On Labels newsletter n.8, June 2013

Dear colleagues,

We would like to inform you about the final stages of the activities of the Come On Labels project, supported by the Intelligent Energy Europe programme, active in the field of the verification and promotion of energy labels.

The Come On Labels project has formally ended in May 2013 (lasting for 30 months).

FINAL PUBLISHABLE REPORT

Find below a link to the project's Final Publishable Report, which summarises the list of activities and main deliverables. It covers the whole range of project's activities, from evaluating the legislation, to monitoring product testing activities, through visiting shops to evaluate the proper label presence, to organise numerous dissemination activities, and to undertake a research on product replacement schemes. The document is available for download from the link below and it is available in English language and in national modifications for Austria, Czech Republic, Germany, Malta, Poland, and Spain. Do ask the coordinator if you would wish to receive a printed edition!

<http://www.come-on-labels.eu/about-the-project/final-report>

Some of the project main achievements and activities include:

- **Labelling legislation:**

Overview of the EU legislation on labelling and ecodesign and its latest updates for several product groups and labelling aspects (distant selling, product databases):

<http://www.come-on-labels.eu/legislation/eu-product-energy-labelling>

- **Product testing:**

Summary of proper testing procedures and examples of concrete test activities, as well as specification of opportunities for cooperation and sharing of test results:

<http://www.come-on-labels.eu/appliance-testing/energy-consumption>

Come On Labels

- **Displaying labels in shops:**

Evaluation of correct label display in over 900 shops, including the shop visit mechanism, and a large scale overview of the presence of labels in shops, analysed by the type of shops and products, and monitoring the increased presence of new energy labels:

<http://www.come-on-labels.eu/displaying-energy-labels/appliance-labelling-in-shops>

- **Promotion of energy labels:**

Organisation of a numerous dissemination activities explaining the new energy labels to consumers, including over 110 articles, over half a million printed materials, and more then 3,3 million viewers:

<http://www.come-on-labels.eu/promoting-energy-labels/examples-of-promotion-activities>

- **Product replacement schemes:**

Overview of existing product replacement schemes, supporting a quicker and better replacement of products. Analysis of selected recent schemes and a set of recommendations for their more effective operation:

<http://www.come-on-labels.eu/replacements/description-of-activities>

Please, let us know if you would like to receive any more detailed information about the activities listed above, or would like to cooperate on the support of product energy labelling in 13 European countries!

- **Coordinator: Juraj Krivošík, SEVEN, Czech Republic, juraj.krivosik@svn.cz**

The Come On Labels project is active in Austria, Belgium, Croatia, Czech Republic, Germany, Greece, Italy, Latvia, Malta, Poland, Portugal, Spain, UK.
